ABOUT US

Established in 2009, Planet Entertainment & Event Management Company has quickly become a frontrunner in the entertainment and event management industry thanks to its forward-thinking management and wide range of elevated services. The lack of a well-thought-out plan can ruin the events that are taking place, or it can create unnecessary last-minute hurdles that are hard to overcome in a short amount of time;

Our team with a clear sense of client requirements enables smooth execution with a wide range of experience which they bring in onto the scenario to ensure that only the best is delivered. With 10+ years of expertise and 500+ events successfully managed, the Planet EEM team is well-equipped to develop and deliver an excellent event, whether it be corporate, experimental, or social, at reasonable prices. No matter the motivation, Planet EEM will deliver an original concept and ensure that your narrative is heard and remembered long after the event has ended.

10⁺

Years of Experience

500⁺

Successful Events

We are committed to providing excellent service to our customers and value the trust and loyalty they have placed in us. Experienced event managers who also have a knack for coming up with novel approaches to problems do a great deal of other things to help an event come to life, which is both a value to our clients and a way to save them time and money.

OUR MISSION & VISION

Our mission is to help our clients develop a clear vision of what they wish to achieve, and to create and execute a complete solution that brings their vision into reality using proven strategies, innovative ideas, limitless resources, and professional expertise in the event management and function planning industry.
